

How this passion course can help you

In a few short weeks, you can start to create the foundation of your future passion side gig or business.

- Do you want to start getting paid for doing what you love to do (your skills, talents, and passions)?

Perhaps you're waking up each day, wishing you could call in sick at work. You might describe your work as soul-crushing or meaningless. Or maybe it just feels like you're not fully using your skills and talents, like you've lost a sense of passion and excitement.

You know that there's a positive contribution you could make to the world and that you're not quite doing what you're meant to be doing.

At the same time, you're suffering from a lack of clarity.

You might feel like there are so many things you could do, but no sense of what you want to do. Or perhaps you're stuck in "one day" thinking and don't know how to turn your dreams into a reality, how to turn your potential into a business that could bring in an income.

Maybe you're wondering about what to do with your life and feel unsure and worried about your future. While you know that you want to make a change, you don't know where to start.

Other things may also hold you back from getting paid for your skills and talents.

Maybe the demands of your work always get in the way and do not provide you space and time to dedicate to your passions.

Or there's a lack of good alternatives.

Perhaps all the options you found for starting an online business require too much time, or start-up money, or self-confidence (or feel super icky and slimey and out of integrity - ugh!).

Maybe your current situation is too comfortable for you to make changes.

Our step by step action Plans for you

 Confidence for focusing on the right thing.

Recommendations for all the (Simple!)tech tools you need

 Solutions to choose(no more second-guessing!)

Guidance on identifying your passion

 know where to start

3 Different “passion pathways” to pick from
